

# **Alternative Wood Pellet Markets**

---

Scott Jacobs – President of PurHeat, LLC

# Wood Pellet and By-Products Market

- Natural Gas Fracking and Direction Drilling
  - Absorbent Socks/Pads
  - Small Animal Litter and Odor Control
  - BioChar and Activated Carbon
-

# Natural Gas – Fracking Application

# Purpose for Pellets in Fracking

- Reduce Water
- Allow material to be sent to a landfill.

This market is driven by the drilling for Natural Gas.

With Natural Gas production slowing down this market has decreased dramatically over the past year.

---

# Absorbent Socks / Pads

Designed for Environmentally Friendly Service Providers

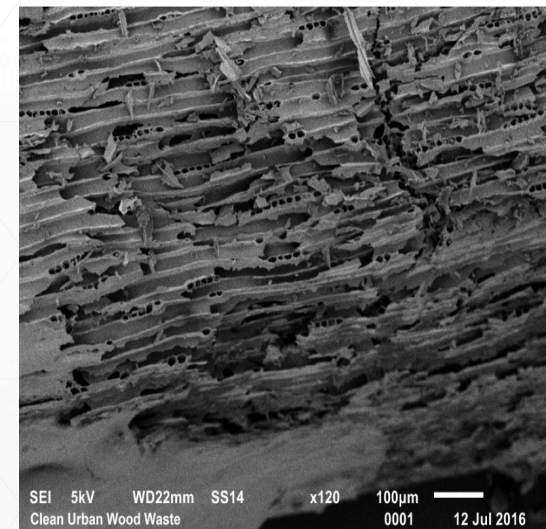

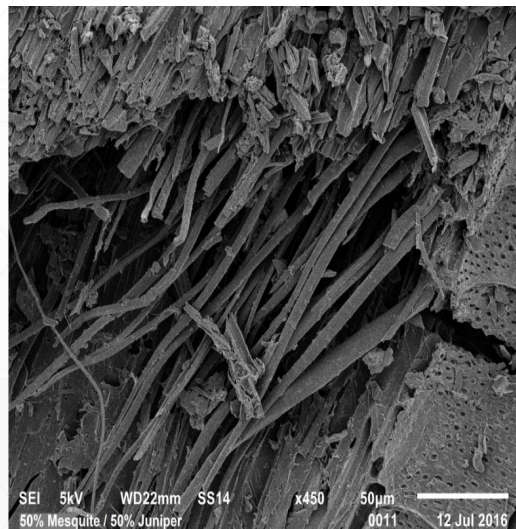

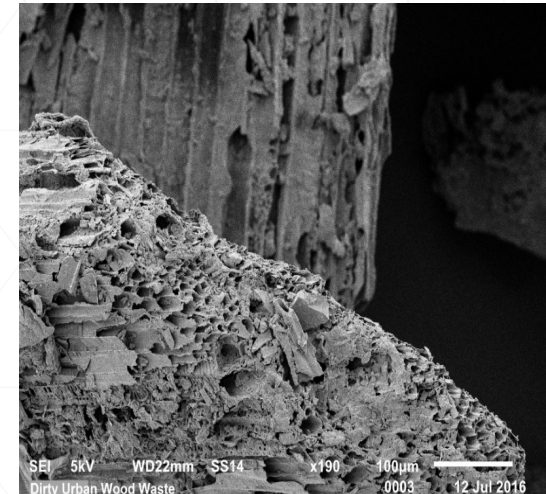

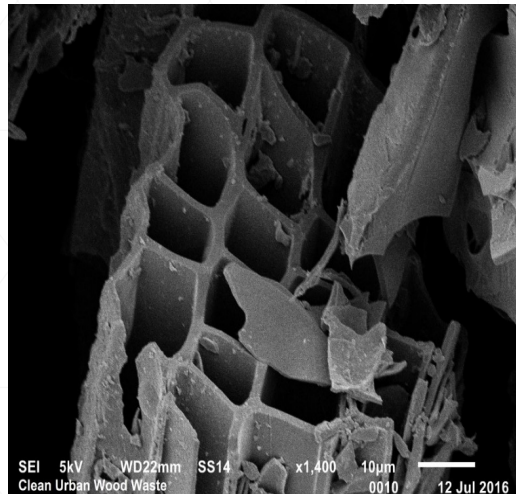

Ideal product for these types of products are the screening off of finished pellet production.

# Small Animal Litter and Odor Control

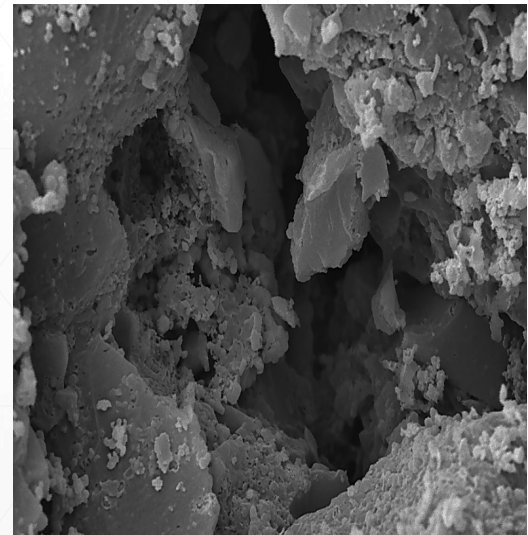

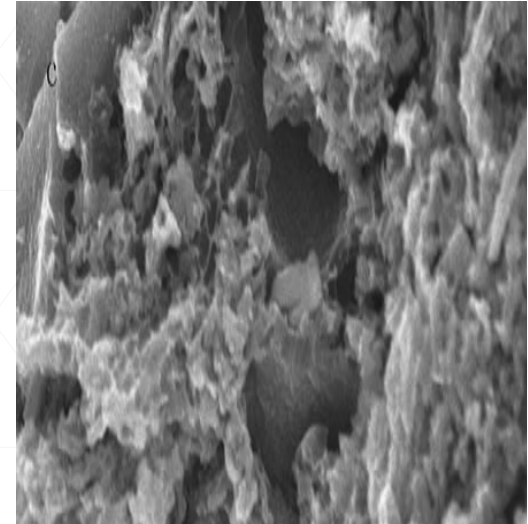

# Biochar Market

- Water Absorption
- Compost Activation
- Fertilizer Market

# Activated Carbon

- Water Filtration
- Mercury filtration in coal power plants
- Purification of Gold
- Steel
- Cement
